PE and Sport Premium Evidencing the Impact Report 2025–2026

Total PE and Sport Premium Funding Received: £16,720

Overview

This report outlines how PE and Sport Premium funding has been used to improve physical education, school sport and physical activity, and the impact on pupils.

Priority 1: Increasing Participation in Physical Activity

We have continued to promote active lifestyles through a range of opportunities during curriculum time, break times and extra-curricular provision. Funding has been used to increase opportunities for pupils to engage in regular physical activity, helping to improve physical health, wellbeing and engagement. Participation rates in clubs and sporting activities have increased, with a particular focus on ensuring that disadvantaged pupils and those with additional needs have access to a wide range of opportunities. As a result, pupils demonstrate greater enthusiasm for physical activity and understand the importance of leading healthy, active lifestyles.

Action/Investment	Cost	Impact
Active play and playground equipment	£ 300	Increased levels of daily physical activity and engagement at playtimes.
After-school sports clubs	£ 100	Increased participation across all key groups, including disadvantaged pupils.

Priority 2: Improving Staff Confidence, Knowledge and Skills

Funding has been used to provide professional development opportunities for staff through coaching, mentoring and specialist support. Teachers have worked alongside experienced PE practitioners to enhance their subject knowledge and develop confidence in delivering high-quality PE lessons. This has resulted in more consistent teaching across the school, improved progression of skills throughout the curriculum and increased staff confidence in planning and assessing PE effectively. The impact of this investment will continue beyond the current academic year as staff apply their enhanced skills across all year groups.

Action/Investment	Cost	Impact
Specialist PE coaching and mentoring	£ 7,800	Improved staff confidence and quality of PE teaching.
CPD and training opportunities	£ 1,035	More consistent delivery of the PE curriculum.
Specialist Teacher for outdoor activity	£ 1,045	

Priority 3: Broadening Sporting Opportunities

The school has used funding to provide a wider range of sporting experiences for pupils, enabling them to participate in activities that may not otherwise be available. Additional resources, coaching and enrichment opportunities have broadened the PE curriculum and increased pupil engagement. Pupils have been encouraged to try new sports, develop resilience and discover activities that they enjoy, promoting lifelong participation in physical activity. Feedback from pupils indicates high levels of enjoyment and increased confidence when participating in sports and physical activities.

Action/Investment	Cost	Impact
Introduction of new sports and activities	£ 810	Pupils experienced a wider range of physical activities.
Sports equipment and resources	£ 440	Enhanced curriculum delivery and participation.

Embedding the use of outdoor environments for increased physical activity	£ 3,265	

Priority 4: Increasing Participation in Competitive Sport

Funding has enabled the school to participate in a range of inter-school competitions, festivals and sporting events. Pupils have benefited from opportunities to represent the school, develop teamwork and experience healthy competition. Participation in competitive sport has helped to build resilience, confidence and sportsmanship whilst raising the profile of sport across the school. An increasing number of pupils have taken part in competitive events, contributing positively to pupil wellbeing and school pride.

Action/Investment	Cost	Impact
Competition entry fees and transport	£ 1,700	Greater participation in inter-school competition.
School Games and festivals	£ 490	Improved teamwork, resilience and sporting experiences.

Swimming and Water Safety

To support pupils in swimming we implemented a two-week intensive swimming programme. This targeted approach provided additional swimming instruction and practice opportunities for identified pupils, helping them to develop confidence, improve technique and increase water safety awareness. As a result, more pupils were able to make accelerated progress towards achieving the National Curriculum swimming requirements, ensuring they are better prepared for safe participation in water-based activities.

Measure	Percentage
Swim 25 metres	78 %
Use a range of strokes effectively	78 %
Perform safe self-rescue	100 %

Sustainability Statement

The school is committed to ensuring that the impact of PE and Sport Premium funding is sustainable. Investment in staff training, resources and curriculum development has strengthened the quality of PE provision and will continue to benefit pupils in future years. Resources purchased will remain available for ongoing use, while staff development has enhanced the capacity of teachers to deliver high-quality PE independently. These improvements will ensure that pupils continue to receive a broad, balanced and engaging PE curriculum.

Impact Overview

The PE and Sport Premium has had a positive impact on pupil participation, wellbeing and achievement. Pupils are more active, more engaged in sporting opportunities and increasingly confident in trying new activities. Staff confidence in delivering PE has improved, and the profile of physical activity within the school has been raised. Through careful use of funding, the school has created sustainable improvements that support both current and future pupils.
