

This week at Suckley School

Happy Friday,

Firstly, I would like to say thank you for your patience and understanding in regards to our decision to close the school on Tuesday. As a parent of school aged children myself, I know how disruptive these changes can be and I appreciate the support you showed following the decision. The safety of the children and staff must always take top priority.

The corridors have been filled this week with visitors! We were delighted to welcome eight students from Worcester University, who joined us for a two-day placement. They gained valuable experience across the school and our children benefited from the extra enthusiasm and support they brought with them into school. I would also like to officially welcome Miss Melville and Miss Bell from Worcester University, who are completing a placement with us in Eagles and Robins class.

I have loved seeing both our Year 5 and Reception children excel in their cycling sessions this week. The pride on their faces as they grew in confidence, both out on the local roads or in the playground, was heart-warming to witness.

Next week, we are going to be showing our support for #ChildrensMentalHealthWeek with @Place2Be! This year's theme is 'This is My Place,' encouraging self-acceptance and belonging. This is always a valuable opportunity for the children to reflect on wellbeing, kindness and how we can support one another.

I wish you all a healthy and happy weekend!

With kind regards,

Helen Field

Suckley School Vision

To celebrate the unique and individual needs of all of our pupils by delivering an inspiring, rich, inclusive, broad and balanced curriculum which enables children to achieve their full potential, without limits.

'Happy, Aspirational and Ready for Life'

Photos of The Week

To support the children's vocabulary and in order for them to keep abreast of current affairs, both locally and nationally, we have a "Let's Talk About It" assembly every Monday. Each week we have different pictures and questions to initiate conversations with, and between, the children. We would like to continue this 'talking' theme by asking you to discuss activities the children have done in school each week. Here are some photos to help prompt the conversations:

Using AI to alter images

AI image generator and moderator tools are widely available and often used by children. Whilst these tools can be used for creative purposes, we need to ensure our children are aware of the appropriate way in which to use them and the circumstances when they should not be used, even if harm is not intended.

What are AI image generator and moderator tools?

It is when Artificial Intelligence is used to create or modify images, for example it could be used to swap faces, change expressions or for more sinister reasons, such as to remove clothes. These images are often very realistic and therefore difficult to see that they are fake.

Privacy concerns and consent

If your child is using these tools, they need to be aware of potential loss of privacy and the importance of consent. They should know that they should only use images of other people with consent.

What does my child need to know about using these tools?

- ☐ Children shouldn't use AI tools to manipulate images of school staff.
 - ☐ Even if the child's intention is not malicious, children should not use AI tools to create or edit photos of teachers under any circumstances.
- ☐ Manipulation of images of friends or other children – if you are using images of other people, then consent **must** always be sought.
- ☐ The tools should not be used to create images that can embarrass or hurt others - this is a form of online bullying.
- ☐ Copyright issues – who owns the copyright? These images could be reused by others, which can affect their own digital footprint.

What should I do?

- ☐ Chat to your child if they are using these tools and ascertain the reason why. Ask them to show you the images that they have created.
 - ☐ Check the age ratings of any apps/websites that your child is using and set up appropriate parental controls.
- ☐ Develop your child's digital literacy by teaching them to recognise online risks and to behave responsibly online

TikTok

You must be over 13 years of age to use TikTok. TikTok is a social media platform for sharing and watching short video clips. If your child is using TikTok then make sure appropriate security / privacy settings are applied.

Account set up

It is important that your child enters their real date of birth as accounts are tailored by age e.g., Direct Messaging is disabled for accounts aged 13-15. In addition, advertisements are tailored by age. By default, accounts for people under 16 are set to private. You can read more about the other settings available, such as switching off comments and restricted mode here: <https://support.tiktok.com/en/account-and-privacy/account-privacy-settings/privacy-and-safety-settings-for-users-under-age-18>

Family Pairing

Family Pairing allows you to link your own account to your child's account. You can then set controls such as restricted mode or tailor your child's 'For You' feed by selecting keywords that TikTok will use to filter out posts. You can find out more here: <https://support.tiktok.com/en/safety-hc/account-and-user-safety/family-pairing>

What do I need to be aware of?

- ☐ **Inappropriate content and themes:** whilst against guidelines, explicit and inappropriate content can be found on this platform, for example nudity/sexual content and hate speech. Some of the songs available to lip sync to may contain inappropriate lyrics/themes.
- ☐ **Challenges:** We often see viral challenges on social media, some of which can be **risky/dangerous**. Sadly, there are reports that children have died whilst attempting online challenges. Children may not yet have developed the skills and ability to critically analyse that what they see online is not always safe for them to replicate.
- ☐ **Stranger contact:** chat to your child about how people may not be who they say they are when online.

Refresh your feed

You can refresh your "For You" feed to update the content recommended: <https://support.tiktok.com/en/account-and-privacy/account-privacy-settings/refresh-your-for-you-feed>

Blocking and Reporting

Show your child how to use the safety features available.
